

# What if...

your Mum  
was sick...

...and couldn't  
afford to pay  
the rent?

"I've been caring for my mum on her cancer journey for the last two years. Although there are a lot of cancer charities willing to provide emotional support and nurses, there wasn't any support for me to help my mum pay the household bills when she could no longer work."

> JACK TERRINS

Apprentice Support  
Programme

# Apprentice Support Programme (ASP)

Supporting the industry through education is a key focus for the Electrical Industries. The Apprentice Support Programme is designed to help young people deal with some of the key challenges that affect them as they embark on their career. We provide financial grants and practical assistance to apprentices and their families.

# How...

do you  
pay your  
mortgage...

...when  
sick pay  
runs out?

**"To give my family the gift of time is something that I'll never be able to repay. This was the hardest time in my life and to have my employer and the charity support me financially relieved all the pressure. As a family we have lost our Daisy but we will never lose the memories of her last few months. For this there are no words of gratitude that will ever feel enough."**

> MATHEW CLOW

# Do you...

provide  
24/7 care...

...for  
someone in  
your family?

"Although I did not see myself as a carer, I was just doing what I'd done for the last 38 years to support my child. Thanks to the Charity the respite holiday was probably the turning point in making sure I was able to continue."

> LINDA NORTHCOTT

**PSP**  
Pensioner Support  
Programme

# Pensioner Support Programme (PSP)

Working seamlessly with a range of professional charitable and service providers across a broad spectrum, the Pensioner Support Programme is an enabler for a safer, healthier and more independent retired life. The Charity can provide a hand up with financial grants and assistance services.

# What if...

you couldn't  
get around...

...your  
house?

"Having the electrical equipment Edmundson's have supplied for Max is fantastic. I would not have known where to start. It has worked really well between the electrician & Edmundson's. We thank you from the bottom of our hearts."

> LISA PARKER

Practical Participation  
Programme

# Practical Participation Programme (PPP)

The Practical Participation Programme harnesses specialist skills in terms of time, equipment and materials - providing practical help where it is needed most. We believe that for every opportunity to give someone in need a hand-up there is a solution.
